# FRANCK HOFFMANN

Product Design Leader · AI/UX Strategist · Design Systems & Team Builder
franck.hoffmann@gmail.com · +1 (646) 331 9777 · LinkedIn · franckhoffmann.com

Design leader who builds the conditions for trust: in AI-powered products, in high-performing teams, in the organizations that scale them, and in the choice architectures that turn complexity into clarity.

With 20+ years leading product design across B2B and B2B2C SaaS, I bring a rare combination: the strategic instinct to make the case for design at the executive level, and the execution depth to ship products that measurably move business outcomes. Known for building design functions from fragmented to high-performing, launching 0-to-1 products, and pioneering AI-powered experiences long before it became an industry priority. Always focused not on the interface, but on the invisible architecture of trust that makes AI systems feel safe, clear, and worth relying on.

## SELECTED ACCOMPLISHMENTS

- Architected Tekmetric's first agentic design-to-code workflow: a Claude-powered system that moves experience briefs through critique and prototyping into a bidirectional Figma-to-code loop, grounded in the live design system and Storybook components and used to ship production product pages.
- Directly contributed to SailPoint's $7B acquisition by Thoma Bravo by delivering an AI-powered dashboard suite that customers called a "game-changer."
- Launched Tekmetric Marketing Suite from 0 to 1, generating $4.7M ARR within six months of launch.
- Increased the dispute win rate on Tekmetric's financial product from 12% to 38% through UX-only optimizations.
- Drove a $1.4M annual revenue increase for Salesforce through a single A/B test.
- Reduced Uber's driver-acquisition costs by $1.9M in one quarter while generating 35,000 organic driver sign-ups through UX-led onboarding optimization.
- Promoted to Partner at Orange Logic within three years; contributed to 300% revenue growth and the company's entry into a $3.5B market.
- Received SailPoint's Lighthouse Award for lasting, measurable impact on the company's long-term goals.

## PROFESSIONAL EXPERIENCE

### Director of Product Design | Tekmetric · Austin, TX · September 2023 – Present

Leading product design for a fast-growing SaaS platform serving auto repair businesses, a company that crossed $100M ARR with its customer base nearly doubling in under 18 months.

- Architected Tekmetric's first agentic design-to-code system: a Claude-powered pipeline that moves experience briefs through critique and prototyping into a bidirectional Figma-to-code loop, grounded in the live design system, Storybook components, design principles, and UX voice standards; used to ship production product pages.
- Rebuilt and scaled the design function, leading a team of 7: established clearer workflows, strengthened cross-functional collaboration with Product and Engineering, and transformed a fragmented design system into a scalable, tokenized foundation aligned between Figma and Storybook.
- Launched Tekmetric Marketing Suite from 0 to 1 - $4.7M ARR in under six months of launch.
- Boosted dispute win rate from 12% to 38% on Tekmetric's financial product through UX-only optimizations.
- Made the case for in-app onboarding as a growth ceiling risk, resulting in a dedicated product team and Tekmetric's first zero-touch initiative.
- Pioneered Tekmetric's first PLG motion: in-product value pages that drove adoption by leading with customer outcomes, a pattern since scaled across the platform.
- Partnered closely with product leadership to sharpen discovery, clarify problem framing, and accelerate delivery of high-value features.

**Head of Product Design & UX Research** | SailPoint · April 2020 – August 2023

- Led and mentored a high-performing, lean team of 10 (7 designers, 1 manager, 2 UX researchers) across 8 SaaS cybersecurity products in collaboration with 44 PMs.
- Championed design at the executive level, contributing to the company's $7B acquisition by Thoma Bravo in 2022 through a compelling product vision and AI-powered dashboard suite praised as a "game-changer" by customers.
- Established a UX Research practice and a Product Design mentorship program, building organizational capability and data-driven decision culture.
- Pioneered cross-functional leadership initiatives, establishing a peer collective across design, product, and engineering.
- Proactively mitigated customer escalations in partnership with CS and Sales teams, demonstrating executive-level customer focus.

**Director, Experience Optimization** | Accenture Song · Austin, TX · March 2019 – March 2020

- Spearheaded lead-generation UX for Uber: +35,000 organic driver sign-ups and $1.9M in reduced marketing spend in a single quarter.
- Conceived and executed a Salesforce A/B test optimizing form submission errors, directly contributing to $1.4M annual revenue increase.
- Delivered research findings for the Wolverine portfolio (Merrell, Keds, Sperry, Chaco) that secured an expanded budget and projected a 40% revenue uplift, proof that design research translates directly to investment decisions.

**Partner | Head of Product Design** | Orange Logic · New York, NY & Austin, TX · January 2012 – February 2019

- Promoted to Partner within 3 years; doubled a global client portfolio of 50+ accounts including BBC, Facebook, Airbnb, and Boeing.
- Redesigned the core platform UX, directly enabling Orange Logic's entry into a $3.5B market and 300% revenue growth over 7 years.
- Architected a modular design system that compressed feature development cycles, unlocked user customization at scale, and accelerated customer time-to-value.

**Creative Technologist, UX Lead** | Art + Commerce/WME-IMG · New York, NY · June 2004 – January 2012

- Collaborated with Creative Director Lisa Naftolin (board member of AIGA) to transform the company's digital vision, brand presence, and operations.
- Led a redesign of the Art + Commerce website, creating a digital media licensing and royalty platform with 20+ years of lasting impact.
- Built and managed an in-house retouching studio serving world-class photographers including Annie Leibovitz and Steven Meisel.

**Earlier Career**: Founder, Arobase Studio (NY) · Manager/Head Retoucher, The C Lab (NY) · Film Director & FX Supervisor (Paris)

## CORE EXPERTISE

**Design Leadership & Strategy**: Design advocacy, OKRs, executive stakeholder management, team development & mentorship, cross-functional alignment

**AI/UX**: 9+ years designing user experiences for AI-powered products and models

**Research & Data**: UX research, usability studies, A/B testing, market research, NPS, Pendo, UXUM-Lite

**Design Execution**: Design thinking, wireframes, prototyping, design systems, information architecture, interaction design, UX writing: Figma, Sketch, Adobe XD

**Accessibility**: WCAG 2.0/2.1 AA expert

**Process & Delivery**: Agile, Jira, Scrum; discovery, problem framing, design review frameworks

## EDUCATION & CERTIFICATIONS

**PMC Level III Certification**, Pragmatic Institute · **Optimal Product Management & Marketing**, The 280 Group

**BA in Film**, ESRA (Best Short Film, Sophomore Year) · **Piano & Composition** , Conservatoire Olivier Messiaen
